Education

Kalinga Institute of Industrial Technology (KIIT) <i>Computer Science and Engineering (CGPA: 8.62/10)</i>	June 2024 Bhubaneswar, Odisha
Tilottama Secondary School <i>Senior Secondary (Percentage: 78.75%)</i>	April 2019 Yogikuti, Rupandehi

Work Experience/Internships

Fidelity Investments <i>Software Engineer Apprentice</i>	Sept 2025 – Present Bengaluru, Karnataka
<ul style="list-style-type: none">Currently working on API development using Java, contributing to backend services and RESTful APIs.Worked on Playwright automation testing for an Angular web application, creating and maintaining end-to-end test scripts to ensure application reliability and regression coverage.Collaborated with cross-functional teams to understand requirements, debug issues, and deliver features in an agile environment.Gained hands-on experience with enterprise-level codebases, version control, and software development best practices.	
Revature <i>Java Backend Development Trainee</i>	Jan 2025 – Apr 2025 Remote
<ul style="list-style-type: none">Trained in Java, SQL, and Spring Boot REST APIs with hands-on coding and project work.Delivered projects including a JDBC-based application for database operations and a Spring Boot REST API with data persistence and validation.	

Projects

Social Media Blog API 🌐 github.com/ivipinyadav14/ivipinyadav14-pep-spring-project	Mar 2025 - Apr 2025
<ul style="list-style-type: none">Developed a backend API using Spring Boot for user registration, authentication, and CRUD operations.Implemented authentication logic and robust validations (e.g., unique usernames, password rules).Passed all provided unit and integration test cases, ensuring the application meets expected business rules.Gained hands-on experience with REST API design and Spring Boot lifecycle.	
Youtube Transcript Summarizer 🌐 github.com/ivipinyadav14/youtube-transcript-summarizer	Jan 2024 - Apr 2024
<ul style="list-style-type: none">Collaborated on building a tool to summarize YouTube transcripts.Focused on front-end development with HTML, CSS, and JavaScript.Debugged and tested the application to improve user experience and ensure stability.	

Technical Skills

Programming Languages: C, C++, Java
Web Development: HTML, CSS, Tailwind CSS, JavaScript
Frameworks and Tools: Spring Boot, JDBC, Git
Databases: SQL, RDBMS
Concepts: REST APIs, Microservices, OOP, Data Structures and Algorithms, Operating Systems
Soft Skills: Problem-solving, Creativity, Teamwork

Certificates

HackerRank Certificate: Problem Solving (Intermediate) [Certificate](#)
HackerRank Certificate: SQL (Intermediate) [Certificate](#)

Extra-Curricular Activities

- Volunteer Manager at KIIT Fest'24, responsible for training and managing volunteers for tasks like registration.
- Member of Art of Giving movement, helping those in need through acts of kindness and charity.
- Hobbies include swimming and traveling.
